1ST ANNOUNCEMENT

36ASM.SOA.ORG.SG

Pre-meeting Workshop 1 - Advanced Knee Arthroscopy and Reconstruction

Tuesday, 8th October 2013 @ The Academia, Singapore General Hospital

This is a 1-day cadaveric workshop focusing on arthroscopic techniques for Anatomic, Double-bundle ACL and PCL reconstructions of the knee. Meniscal repair techniques will also be covered.

Participants

Limited to the first 30 participants

- Intermediate - Advanced Skills Level
- Proficient in Knee Arthroscopy

Scientific Focus

- Anatomical ACL & Double-bundle ACL Reconstructions
- Advanced Meniscal Repair Techniques
- PCL Reconstruction

Pre-meeting Workshop 2 - Advanced Shoulder Arthroscopy and Reconstruction

Wednesday, 9th October 2013 @ The Academia, Singapore General Hospital

This is a 1-day cadaveric shoulder workshop focusing on arthroscopic techniques on the management of rotator cuff and bony lesions of the glenoid. Participants should be proficient in basic shoulder arthroscopy. At the end of the workshop, the participants will be updated on the latest development in arthroscopic reconstruction techniques of the shoulder and acquire the technical skills of performing these procedures

Participants

Limited to the first 30 participants

- Intermediate - Advanced Skills Level
- Proficient in Shoulder Arthroscopy

Scientific Focus

- Rotator Cuff
 - Management of PASTA Lesions
 - Management of Massive Cuff Tear
- Management of Bone Loss in Shoulder Instability
 - Management of Bony Bankart Lesion

Main Meeting - 36th Annual Scientific Meeting

10 - 12 October 2013 @ Four Seasons Hotel, Singapore

Scientific Highlights

- **Knee**
 - Double-bundle ACL Reconstruction
 - PCL & Multi-ligament Instability of the Knee
 - Patello-femoral Disorders
 - Cartilage Update
- **Shoulders**
 - PASTA Lesions
 - Massive Cuff Tears
 - Glenoid-deficient Instability & Reconstruction
 - Bony Bankarts

A maximum of 12 CME points will be accredited for the meeting. Subjected to approval by SMC.
